INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and
Members of the City Council
City of Ionia
Ionia, Michigan

We have audited the accompanying financial statements of the Dial-A-Ride Transit Fund of the City of Ionia, Michigan, as of and for the years ended June 30, 2006 and 2005, as listed in the Table of Contents. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note A, the financial statements present only the Dial-A-Ride Transit Fund and do not purport to, and do not, present fairly the financial position of the City of Ionia, Michigan, as of June 30, 2006 and 2005, and the results of its operations, and cash flows of its proprietary fund types for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Dial-A-Ride Transit Fund of the City of Ionia, Michigan, as of June 30, 2006 and 2005, and the results of its operations and cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated September 21, 2006, on our consideration of the City of Ionia's internal control over financial reporting and our test of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

The Management's Discussion and Analysis on pages iii through ix is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Dial-A-Ride Transit Fund of the City of Ionia, Michigan, financial statements. The accompanying additional information listed in the Table of Contents under Other Supplementary Information is presented for purposes of additional analysis and is not a required part of the basic financial statements of the Dial-A-Ride Transit Fund of the City of Ionia, Michigan. Such information, except for that portion marked "unaudited" on which we express no opinion, has been subjected to the auditing procedures applied in the audit of the Dial-A-Ride Transit Fund of the City of Ionia, Michigan, financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The intent of the management discussion and analysis is to provide highlights of the Agency's financial activities for the Fiscal Year ended June 30, 2006. Readers are encouraged to read this section in conjunction with the transmittal letter and the accompanying basic financial statements.

FINANCIAL HIGHLIGHTS

- ❖ **Assets** – The assets of the Dial-A-Ride did exceed its liabilities by \$ 1,211,380 (net assets). Of this amount, \$142,824 (unrestricted net assets) may be used to meet the Dial-A-Ride's ongoing obligations to citizens and creditors. The total net assets increased by \$42,047. The State reconciles payments to transit authorities annually and adjusts payments to municipalities based on that increase or decrease. In past years that amount has not been credited to the receivable on the Balance Sheet.
- ❖ **Unreserved Fund Balance:** At the end of the current fiscal year, unreserved fund balance for Dial-A-Ride was \$142,824 or 19.2% of total operating expenses. This is up from \$131,180 or 17.2% of last year's operating expenses.
- ❖ **Ridership:** Demand response revenue (fare box) increased this year by \$6,206, and contractual demand response service earned \$7,493 more. The miles traveled, 142,581, were 719 miles less than the preceding year.
- ❖ **Federal & State Funding Projects**
Capital Projects: The Ionia Dial-A-Ride is eligible for grants through the Michigan Department of Transportation and the U.S. Department of Transportation. During the fiscal year ending June 30, 2006, Dial-A-Ride secured funding for an upgrade to its communications system, and also the purchase of three (3) new vehicles..

Job Access Project: Dial-A-Ride secured Federal and State grants for the Jobs Access and Reverse Commute program starting in 2001. Ionia Dial-A-Ride and Belding Dial-A-Ride work together to offer job related transportation services between the City of Belding and the City of Ionia. The grant award total for running this program for the fiscal year which ended June 30, 2006 was \$59,756.
- ❖ **Investment Income:** Interest revenue increased 57.6 % to \$8,205 this year.

OVERVIEW OF THE FINANCIAL STATEMENTS

The annual report includes this management discussion and analysis report, the independent auditor's report and the basic financial statement of the Dial-A-Ride, which include notes that explain in more detail some of the information in the financial statements.

As a municipal transportation authority, Ionia Area Dial-A-Ride engages in primarily enterprise operations in various separate and distinct activities. These activities include: 1) demand service for transporting commuters; 2) contracted tripper service for school routes in the Ionia Public School District; and, 3) inter-county service for state funded programs.

MANAGEMENT'S DISCUSSION AND ANALYSIS

REQUIRED FINANCIAL STATEMENTS

The financial statements report information of the Dial-A-Ride (DAR) using accounting methods similar to those used by private sector companies. These statements offer short and long-term financial information about its activities. The Statement of Net Assets includes all of the DAR's assets and liabilities and provides information about the nature and amounts of investments in resources (assets) and the obligations to DAR creditors (liabilities). It also provides the basis for evaluating the capital structure of the DAR and assessing the liquidity and financial flexibility of the DAR.

All of the current year's revenues and expenses are accounted for in the Statement of Revenues, Expenses, and Changes in Net Assets. This statement measures the success of the DAR's operations over the past year and can be used to determine whether the DAR has successfully recovered all of its costs through its user fees and other charges, profitability and credit worthiness.

The final required financial statement is the Statement of Cash Flows. This statement reports cash receipts, cash payments and net changes in cash resulting from operations, investing, and financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in the cash balance during the reporting period.

FINANCIAL ANALYSIS OF THE DAR

The Statement of Net Assets and the Statement of Activities provide the information to determine how the DAR did financially during FY 05-06. The net assets, or the difference between assets and liabilities, and the changes in them can indicate whether financial health is improving or deteriorating over time. However, other non-financial factors such as changes in economic conditions, service area and new or changed government legislation also need to be considered in determining the DAR's financial health.

NET ASSETS

The DAR's Statement of Net Assets is presented in the following Tables. A comparative analysis of data is presented to the fiscal year of 2004-2005.

Prior period adjustment	<u>(31,935)</u>	<u>-</u>
Ending Net Assets	<u>\$ 1,169,333</u>	<u>\$ 1,211,380</u>

While the Statement of Net Assets shows the change in financial position of net assets, the Statement of Revenues, Expenses and Changes in Net Assets shows that the operations actually had a loss before capital contributions. Depreciation expense of \$159,610 is a non-cash expense, which represents the reduction in the value of the facility and buses. Due to the nature of the Dial-A-Ride's capital improvement plan, this cost is not considered in the budget process because of the capital grants available through State and Federal funding (see Table 3).

The DAR's operating revenues were more than last year. Operating Expenses were also less by \$13,389 from the previous year.

BUDGETARY HIGHLIGHTS

The Dial-A-Ride is an enterprise fund of the City of Ionia and is therefore not required to adopt an annual budget. However, the City Council does adopt an annual Operating Budget and a five-year Capital Plan for the Dial-A-Ride following a public hearing. The Operating Budget includes proposed expenses and the means of financing them. The DAR's operating budget remains in effect and can be revised with City Council approval prior to the fiscal year end.

CITY OF IONIA DIAL-A-RIDE

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Contractual services variance shows that capital improvement projects were completed and recorded as assets on the balance sheet instead of as an expense. The costs are budgeted and maintained on the Revenue and Expenditure report but in reality are capital items that ultimately are moved to the Balance Sheet. The variances on the State and Federal revenues are also related to the capital projects. The facility addition and the communication tower were continued from the prior year and finalized in FY 2006. The total capital project was shown on the budget, but the actual costs and corresponding revenues were less for this time period.

CAPITAL ASSETS

The acquisition of new buses and most other facility improvements are funded by Federal sources (80%) and State match from the Michigan Department of Transportation (20%). This allows for the DAR to maintain its fleet at an average life of 5 (five) years. This funding source also allows for the DAR to use all of its operating revenues on daily services and not tie up those incomes with debt payments for equipment or the facility. There were three (3) new bus's purchased during the FY 05-06 year. Also, the building expansion project that was started before June 30, 2003 and funded through Federal/State capital projects was finalized in FY 05-06. The difference in structures, vehicles, and equipment is reflective of recognizing plant asset disposals for obsolete equipment and depreciation expense.

TABLE 4
CAPITAL ASSETS

	<u>6/30/2005</u>	<u>6/30/2006</u>
Land	\$ 25,000	\$ 25,000
Buildings	1,054,353	1,084,616
Office Equipment	309,413	324,554
Vehicles	<u>739,768</u>	<u>851,676</u>
Sub-total	2,128,534	2,285,846
Less: Accumulated Depreciation	<u>(1,090,381)</u>	<u>(1,217,290)</u>
Net Property and Equipment	<u>\$ 1,038,153</u>	<u>\$ 1,068,556</u>

The DAR's five-year Capital Plan includes bus acquisition and communications upgrades. A Federal grant has been approved to continue upgrades to the communication system that DAR uses within the county. This grant will be disbursed over a 4 year period. The Federal earmark for this project is \$493,240.

DEBT ADMINISTRATION

The DAR carries no long-term debt as any improvements to the fleet or facilities have all been secured by State or Federal grant projects. This allows the DAR to avoid any debt other than current liabilities in the normal operation of the system. The DAR does levy .75 mills in the City to generate property tax revenue which is used in the operation of the system. The taxes collected are not obligated to any bond payments.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

In setting the fiscal year budget for 2006-2007, many factors are considered by the DAR and the City Council. Many of the funds that subsidize the transportation operation are appropriated by both State and Federal legislation. These funds have remained consistent, however, fluctuations in future funding levels may be contributed to economic conditions at local, State, and the Federal levels. During the FY 06-07 Federal and State funds have been earmarked for both the purchase of 3 replacement vehicles and communications upgrades. Total grant will be \$290, 511.

CITY OF IONIA DIAL-A-RIDE MANAGEMENT'S DISCUSSION AND ANALYSIS

Approximately 18-20% of the operating revenue is collected through the fare box. Service standards are evaluated constantly to make sure they match the commuters' needs. Fares have been increased or routes discontinued when it is necessary or when the effectiveness is not being maximized.

TABLE 5
FARES HISTORY

	<u>Regular</u>	<u>Student</u>	<u>Senior/Disabled</u>
07/01/97 - 06/30/03	\$1.50	\$ 1.00	\$ 0.75
07/01/03 - 09/30/05	2.00	1.25	1.00
10/01/06 - Current	2.50	1.75	1.25

Based on high fuel costs, there will likely be some fluctuations in the level of services provided and the associated fares for these services.

City of Ionia
DIAL-A-RIDE TRANSIT FUND

NOTES TO FINANCIAL STATEMENTS

June 30, 2006

NOTE A: DESCRIPTION OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Ionia Dial-A-Ride (DAR) was established to provide public transportation services to residents of the City of Ionia.

The DAR operation is funded primarily with Federal and State operating and capital grants along with user charges.

1. Reporting Entity

The accompanying financial statements are exclusive presentations of the financial condition and results of operations of the Dial-A-Ride Transit Fund. The DAR is considered a fund of the City of Ionia. As a result, industry standards require the City to include the financial activities of the DAR in the City's Annual Financial Report. The Annual Financial Report of the City of Ionia is available for public inspection at the Ionia City Hall.

2. Basis of Presentation

The accounts of the DAR are organized on the basis of a fund which is considered a separate accounting entity. The operation of the fund is accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenses. DAR resources are allocated to and accounted for in the individual fund based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The fund in the financial statements in this report is described as follows:

PROPRIETARY FUND

Enterprise Fund - This fund is used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

The DAR, as a fund of the City of Ionia, applies all GASB pronouncements as well as Financial Accounting Standards Board (FASB) statements and interpretations, Accounting Principles Board (APB) Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements. The DAR, as a fund of the City of Ionia, has elected not to follow FASB pronouncements issued after November 30, 1989 to its business-type activities and enterprise fund.

3. Measurement Focus

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The proprietary fund is accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the Statement of Net Assets. Fund equity (i.e., total net assets) is segregated into invested in capital (net of related debt) and unrestricted components. Proprietary fund type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

4. Basis of Accounting

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The proprietary funds are accounted for using the accrual basis of accounting. The revenues are recognized when they are earned, and the expenses are recognized when they are incurred, regardless of the timing of related cash flows.

5. Budgets and Budgetary Accounting

The DAR, as a fund of the City of Ionia, employs the same budgeting procedures as the City of Ionia, which is described in Note A within the City's Annual Financial Report.

6. Cash and Cash Equivalents

Cash and cash equivalents consist of the DAR portion of the City of Ionia's pooled cash accounts. These pooled accounts consist of various checking, savings, certificates of deposit, and investment trust funds.

7. Capital Assets and Long-Term Liabilities

Capital assets, which include buildings, vehicles, and equipment, are capitalized at total acquisition cost, provided such cost exceeds \$1,000 and the expected useful life of the asset is more than one year. Depreciation is recorded on all depreciable capital assets on a straight-line basis over the estimated useful lives of the assets.

The estimated useful lives are:

Buildings	30 years
Vehicles	5 years
Furniture and Equipment	3 - 7 years

Long-term liabilities are recognized in the basic financial statements when incurred. The portion of those liabilities expected to be paid within the next year is a current liability with the remaining amounts shown as long-term.

8. Accrued Vacation and Sick Leave

DAR employees are granted vacation and sick leave in varying amounts. In the event of termination, an employee is paid for certain portions of unused accumulated vacation and sick time. This amount has been recorded as a current and long-term liability in the Proprietary Fund.

9. Comparative Data

Comparative data for the prior year has been presented in the accompanying financial statements in order to provide an understanding of changes in the financial position, operations, and cash flows. Certain amounts presented in the prior year have been reclassified in order to be consistent with the current year's presentation.

NOTE B: CASH AND CASH EQUIVALENTS

In accordance with Michigan Compiled Laws, the DAR is authorized to invest in the following investment vehicles:

1. Bonds, securities, and other obligations of the United States or an agency or instrumentality of the United States.

NOTES TO FINANCIAL STATEMENTS

NOTE B: CASH AND CASH EQUIVALENTS - CONTINUED

2. Certificates of deposit, savings accounts, deposit accounts, or depository receipts of a State or nationally chartered bank or a State or Federally chartered savings and loan association, savings bank, or credit union whose deposits are insured by an agency of the United States government and which maintains a principal office or branch office located in this State under the laws of the State or the United States, but only if the bank, savings and loan association, savings bank, or credit union is eligible to be a depository of surplus funds belonging to the State under section 5 or 6 of Act No. 105 of the Public Acts of 1855, as amended, being Section 21.145 and 21.146 of Michigan Compiled Laws.
3. Commercial paper rated at the time of purchase within the three (3) highest classifications established by not less than two (2) standard rating services and which matures not more than 270 days after the date of purchase.
4. The United States government or federal agency obligations repurchase agreements.
5. Bankers' acceptances of United States banks.
6. Mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan.

Federal Deposit Insurance Corporation (FDIC) regulations provide that deposits of governmental units are to be separately insured for the amount of \$100,000 for deposits in an insured bank for savings deposits and \$100,000 for demand deposits. Furthermore, if specific deposits are regulated by statute or bond indenture, these specific deposits are to be separately insured for the amount of \$100,000. Michigan Compiled Laws allow for collateralization of government deposits, if the assets for pledging are acceptable to the State Treasurer under Section 3 of 1855 PA 105, MCL 21.143, to secure deposits of State surplus funds, securities issued by the Federal Loan Mortgage Corporation, Federal National Mortgage Association, or Government National Mortgage Association.

Deposits

There is a custodial credit risk as it relates to deposits. In the case of deposits, this is the risk that in the event of a bank failure, the DAR's deposits may not be returned to it. A portion of the cash and cash equivalents of the DAR are covered by Federal deposit insurance along with other deposits of the City of Ionia, limited to \$100,000 in total deposits for each bank customer. Since the City maintains these funds in pooled accounts it is not practical to determine what portion of the DAR funds are insured.

The DAR, as a fund of the City of Ionia, is subject to the investment policy of the City as described in the note captioned "Cash, Cash Equivalents, and Investments" within the City's Annual Financial Report.

NOTE C: INTERFUND RECEIVABLES AND PAYABLES

The following schedule details amounts due to the City of Ionia General Fund from the DAR at June 30, 2006:

Due to General Fund from:	
Dial-A-Ride Transit Fund	\$ <u> 693 </u>

Amounts appearing as interfund payables and receivables arise from two types of transactions. One type of transaction is where a fund will pay for a good or service that at least a portion of the benefit belongs to another fund. The second type of transaction is where one fund provides a good or service to another fund. Balances at the end of the year are for transfers that have not cleared as of the balance sheet date.
